REGAME Theme Guide & Support

Salla theme for digital products — merchant guide to home-page elements, settings and support

Version 1.0 — September 2026

Reflex Color · reflexcolor.com

REGAME

About the theme

REGAME is a Salla theme (Twilight engine) built for selling digital products: downloadable files, codes and gift cards, and services. It reads the product type automatically and shows an “Instant delivery”, “Digital code” or “Service” badge on every card, and provides a dedicated delivery page after payment.

About the theme

The theme ships with 18 custom home-page elements (technical names start with rg-) on top of Raed's standard elements, plus 56 theme-editor settings for identity, colors, badges and policies.

This guide explains every element — what it does, when to use it, setup steps, and a table of its fields and image sizes — then covers theme settings, support FAQ and developer notes.

Adding and editing an element

1. Open the Salla dashboard → Store → Themes → Customize theme.
2. In the "Page elements" list click "Add new element" and pick one from the REGAME elements.
3. Click the element name to open its settings; edit the fields, then "Save changes".
4. Drag elements by the the drag handle handle to reorder them; the "..." menu offers hide, duplicate and delete.
5. Click "Publish" so visitors see the changes.

Home-page elements

The order below is the default order of the elements on the demo store's home page. Each element has a full screenshot as it appears in the store, followed by its description and field table.

01 **Scrolling text strip**
02 **Split banner slider**
03 **Category tiles**
04 **Promotional mosaic**
05 **Hero**
06 **Bundle**
07 **Digital cards carousel**
08 **Offers carousel**
09 **Browse by format**
10 **Products grid**
11 **Featured product**
12 **How it works**
13 **Testimonials**
14 **FAQ**
15 **Creators**
16 **Call to action**
17 **Contact us form**
18 **Follow us**

Home-page elements

Home-page elements

18 REGAME elements, two pages each: the full screenshot and description, then the field table.

1 Scrolling text strip

شريط نصوص متحرك · home.rg-marquee

What it is

A colored strip that scrolls horizontally across the top of the home page, showing up to 12 short phrases with an icon after each one; each phrase can link somewhere. Visitors can pause it, and it respects the device's "reduce motion" setting.

When to use it

Quick news, seasonal offers or trust messages ("Instant delivery", "24/7 support").

Setup steps

1. In the theme editor choose "Add new element" → "Scrolling text strip".
2. Add 1–12 phrases, pick an icon for each and enter a link when needed.
3. Set the cycle duration (10–120 s): higher = slower.
4. Turn on "Custom strip colors" to use colors other than the theme palette.

Tips

- Place it at the very top of the home page so it is the first thing visitors see.
- Short phrases (3–6 words) read faster.

Fields

Field	Type	Default / limits	Notes
Screen-reader label	Text	أخبار وعروض المتجر	
Strip phrases	Repeater	1–12 items	Required.
— Text	Text		Required.
— Icon after phrase	Icon	sicon-star	
— Link (optional)	Text		Enter a link starting with https:// or a store path starting with /.
Cycle duration (seconds)	Number	25	Required. 10–120 seconds. Higher = slower.
Reverse direction	Toggle	Off	
Full-page width	Toggle	On	
Custom strip colors	Toggle	Off	
Background color	Color	#7C5CFF	
Text & link color	Color	#FFFFFF	

2 Split banner slider

سلايدر مقسّم · home.rg-split-slider

What it is

A wide banner slider with a split layout: the active slide shows its wide image, title and button while the other slides appear as narrow strips beside it. Holds 2–6 slides with navigation dots, a pause button and optional auto-rotate.

When to use it

As the store's main visual header, showing the most important categories or campaigns in one space.

Setup steps

1. Add the element, then add 2–6 slides.
2. For each slide pick a REGAME preset or upload your own wide image (1400 × 460 px).
3. Optionally upload a collapsed-strip image (220 × 460 px); otherwise the wide image is center-cropped.
4. Enter the slide title, link and button text; enable auto-rotate and set its delay (3–15 s).

Tips

- Keep the key subject centered in the wide image — the sides are cropped when the slide collapses.
- The three presets (cards / gaming / digital) are designed to match the theme palette.

Fields

Field	Type	Default / limits	Notes
Section title	Text		
Wide layout	Toggle	On	
Auto-rotate slides	Toggle	Off	
Slide duration (seconds)	Number	5 (3–15)	
Slides	Repeater	2–6 items	Required.
— REGAME preset image	Dropdown		Pick a preset or upload your own below; the uploaded image wins. Options: None / Digital cards – blue / Gaming – purple / Digital products – teal
— Wide image	Image		Recommended: 1400 × 460 px. Optional when a preset is used. Keep key content centered — it shows when the slide collapses. Under 3 MB.
— Collapsed-strip image (optional)	Image		Recommended: 220 × 460 px. Empty = the wide image cropped from the center. Under 3 MB.
— Slide title	Text		
— Slide link	Text		
— Link button text	Text	تسوق الآن	
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	

3 Category tiles

بطاقات التصنيفات · home.rg-category-tiles

What it is

A row of small tiles, each with an icon and a category name (1–12 tiles), acting as quick links to store sections. Each tile can have an optional button and its own colors.

When to use it

Right under the slider so visitors reach their favorite section in one click.

Setup steps

1. Add the element and enter a section title (or leave it empty to hide it).
2. Add one tile per category: name, an icon from Salla's library, and the category link.
3. Optional: add button text to show a button under the name, or enable custom colors per tile.

Tips

- Six tiles fill the row perfectly on large screens.
- Use icons from the same (outline) family for consistency.

Fields

Field	Type	Default / limits	Notes
Section title	Text		Optional. Leave empty to hide it.
Categories	Repeater	1–12 items	Required.
— Title	Text		
— Icon	Icon	sicon-apps	
— Link	Text		
— Button text (optional)	Text		A button appears under the category name when text is entered; it opens the category link.
— Custom colors for this card	Toggle	Off	
— Card background	Color	#14141C	
— Card content color	Color	#FFFFFF	Applies to the category name and icon.

4 Promotional mosaic

واجهة العروض المصورة · home.rg-promo-mosaic

What it is

A grid of four promotional image cards in mixed sizes (two tall, one wide, one text card), each with a title, description and linked button. Supports an optional countdown to the offer end date and ships with REGAME artwork for the first three cards.

When to use it

To highlight major campaigns or sections visually in the middle of the home page.

Setup steps

1. Add the element; it always has exactly four cards.
2. For each card enter the title, description, button text and link.
3. Upload a custom image or leave it empty to use the built-in artwork: cards 1 & 2 = 800 × 1200 px, card 3 = 1200 × 800 px, card 4 = 900 × 840 px.
4. Optional: enter an end date such as 2026-12-31T23:59:00+03:00 to show a countdown.

Tips

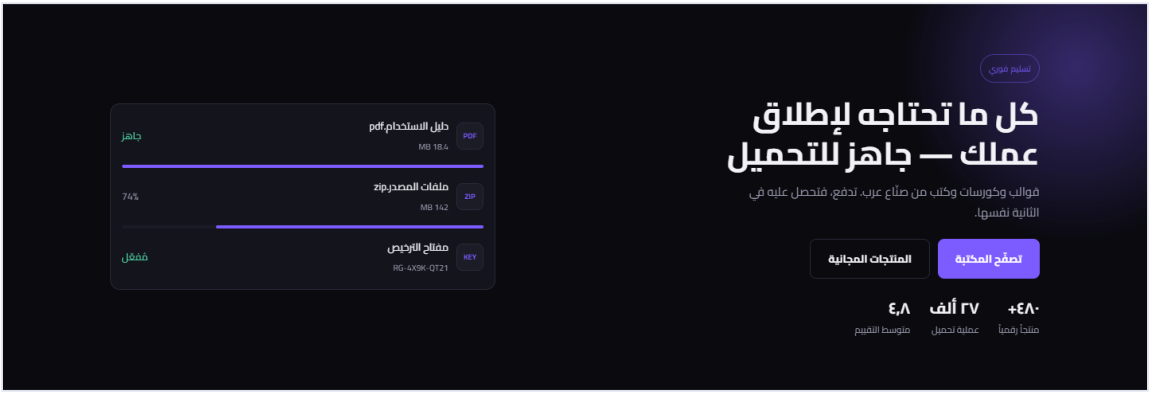

- Keep key subjects away from the image edges — they may be cropped on phones.
- Each card's colors can be customized individually from inside the card.

Fields

Field	Type	Default / limits	Notes
Section title	Text		Optional. Leave empty to hide it.
Offer end date (optional)	Text		Example: 2026-12-31T23:59:00+03:00. Leave empty to hide the count-down; it disappears when the date passes.
Cards	Repeater	4–4 items	Required.
— Title	Text		
— Description	Text		
— Button text	Text	تصفّح المنتجات	
— Button link	Text		
— Custom image (optional)	Image		Recommended (W × H): cards 1 & 2 = 800 × 1200 px, card 3 = 1200 × 800 px, card 4 = 900 × 840 px. Leave empty to use REGAME's built-in artwork (cards 1–3) or the default background (card 4). Keep key elements away from the edges. Under 3 MB.
— Custom colors for this card	Toggle	Off	
— Card background	Color	#14141C	
— Card text color	Color	#FFFFFF	
— Button background	Color	#7C5CFF	
— Button text color	Color	#FFFFFF	
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	

5 Hero

البطل — وعد التسليم · home.rg-hero

What it is

The hero section for digital products: an eyebrow line, a large headline, body text, two buttons and a side panel that illustrates the “delivery promise” (ready files, progress bar, license key). The panel can be replaced by an image, and three achievement numbers can be shown (products, downloads, rating).

When to use it

To explain the store in seconds: what you sell and how it reaches the customer instantly.

Setup steps

1. Add the element and edit the eyebrow, headline and text.
2. Enter both button labels and links (e.g. “Browse library” and “Free products”).
3. Optional: upload a 1200 × 900 px side image to replace the files panel.
4. Enable “Show numbers” and enter three figures with labels.

Tips

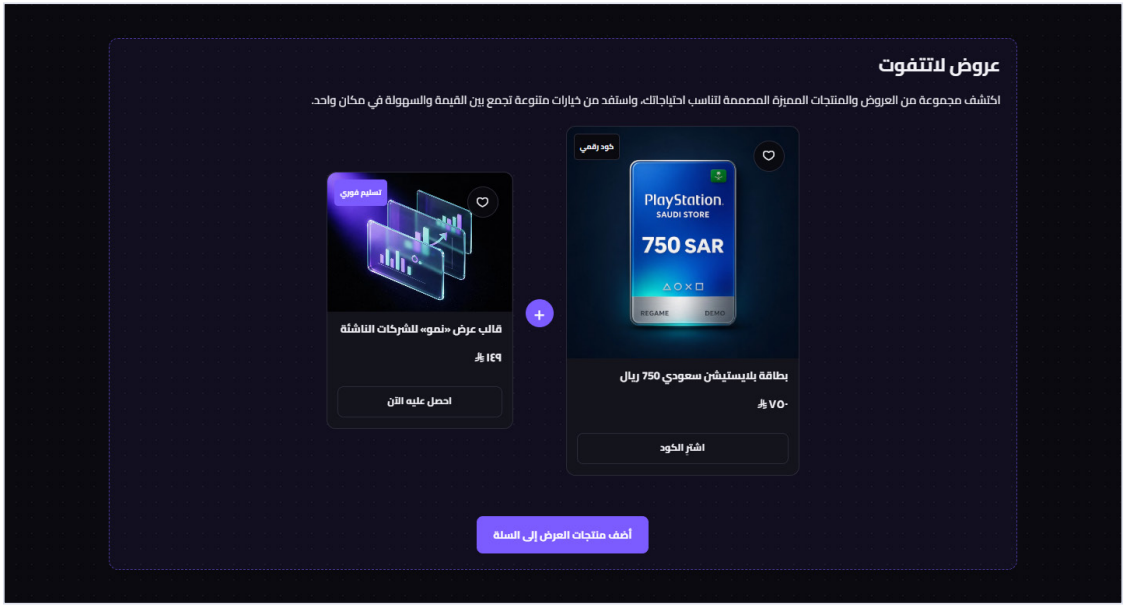

- Numbers build trust — use real figures and update them regularly.
- Leave the image empty to keep the animated delivery panel.

Fields

Field	Type	Default / limits	Notes
Eyebrow line	Text	تسليم فوري	
Title	Text	كل ما تحتاجه لإطلاق عملك — جاهز للتحميل	
Body text	Long text	قوالب وكورسات وكتب من صنّاع عرب. تدفع، فتحصل عليه في الثانية نفسها.	
Button 1 text	Text	تصفّح المكتبة	
Button 1 link	Text		
Button 2 text	Text	المنتجات المجانية	
Button 2 link	Text		
Side image (optional)	Image		Recommended: 1200 × 900 px, no built-in margins; shown at natural height. Empty = the default files panel. Under 3 MB.
Show numbers	Toggle	On	
Number 1	Text	+٤٨٠	
Number 1 label	Text	منتجاً رقمياً	
Number 2	Text	٢٧ ألف	
Number 2 label	Text	عملية تحميل	
Number 3	Text	٤٫٨	
Number 3 label	Text	متوسط التقييم	
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	

6 Bundle

احزمها ووفّر · home.rg-bundle

What it is

Shows one “buy X get Y” promotional offer as a bundle: the main product larger, the discounted product beside it with a “+” sign, and a single button that adds both products to the cart. Offer data, products and prices load automatically from Salla.

When to use it

To raise average order value with a clear bundle (a gift card + a template, for example).

Setup steps

1. First create the offer in Salla: Marketing → Promotional offers (buy X get Y with a specific product on each side).
2. Add the element and enter its title and intro text (both required).
3. Pick the offer from the list, or choose “Other offer by ID” and paste the number from the end of the offer’s edit URL.
4. Optional: change the product-card button text and the “add offer products” button text.

Tips

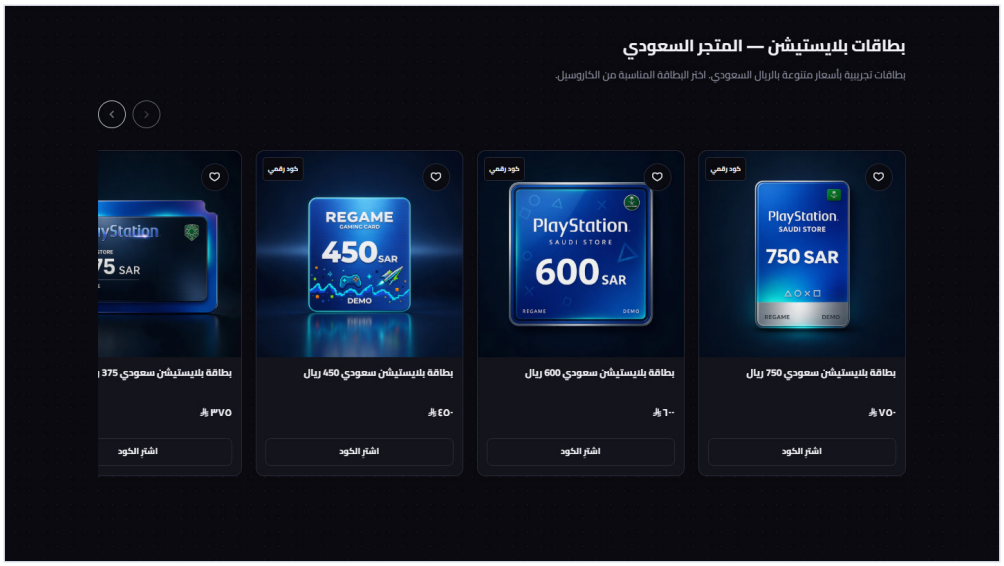

- The offer ID is the number at the end of the offer’s edit-page URL in the Salla dashboard.
- The discount is applied automatically in the cart once both products are added.

Fields

Field	Type	Default / limits	Notes
Element title	Text		Required. The heading shown to visitors.
Intro text	Long text		Required. Text shown under the heading.
Promotional offer	Dropdown		Required. Options: REGAME demo offer / Other offer by ID
Other offer ID	Text		When "Other offer" is selected: copy the number from the end of the offer’s edit URL in Marketing → Promotional offers. Offer data and products load automatically.
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	
Product-card button text	Text		Applies to available products in this element. Out-of-stock / pre-order messages stay as they are.
"Add offer products" button text	Text		Leave empty for the default text.

7 Digital cards carousel

كاروسيل البطاقات الرقمية · home.rg-cards-carousel

What it is

A horizontal carousel of product cards from one category you choose — built for gaming and gift cards — with arrows, a section title and description, and a “view all” button. Shows up to 24 cards.

When to use it

For PlayStation / iTunes / gaming-card stores where products differ by value rather than kind.

Setup steps

1. Add the element and choose the cards category (one category).
2. Set the number of cards (1–24) and the “view all” link.
3. Enter the section title and description; customize the card button text if needed.

Tips

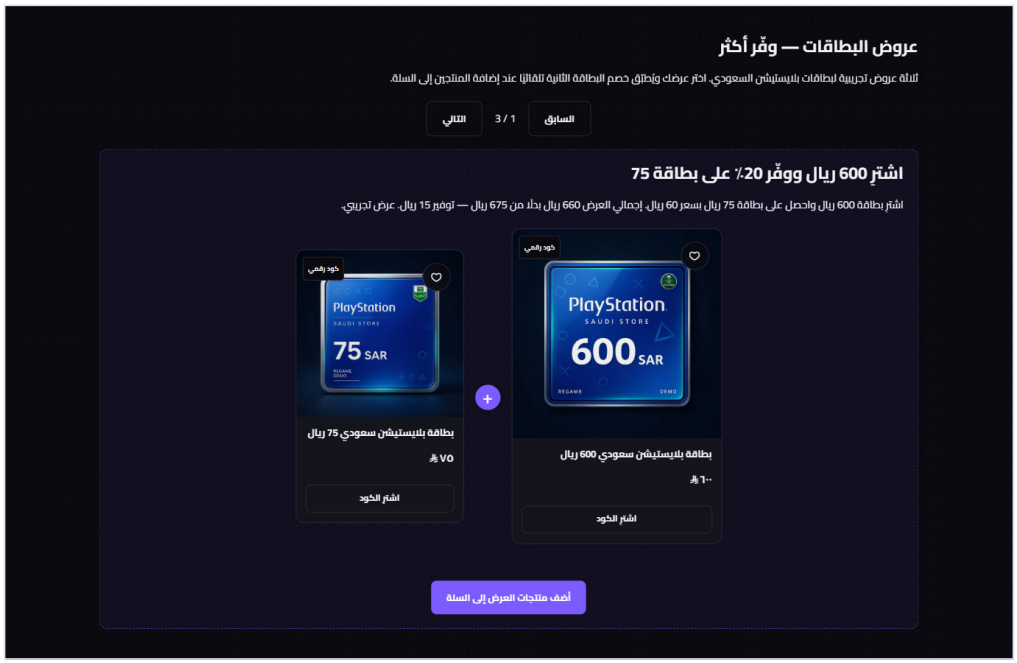

- Square (1:1) product images look best in this carousel.
- Use the product “subtitle” to show a spec line under the card name.

Fields

Field	Type	Default / limits	Notes
Section title	Text	بطاقات بلايستيشن — المتجر السعودي	
Text	Long text	اختر رصيد البطاقة المناسب لحسابك السعودي. أسعار البيع بالريال السعودي.	
Cards category	Dropdown		Required.
Number of cards	Number	12 (1–24)	
"View all" link	Text		
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	
Product-card button text	Text		Applies to available products in this element. Out-of-stock / pre-order messages stay as they are.
"View all" button text	Text		Leave empty for the default text.

8 Offers carousel

كاروسيل العروض · home.rg-offers-carousel

What it is

A carousel of several promotional offers (1–10), one per slide: title, intro text, the two offer products with a "+" sign, and a button that adds the offer products to the cart. Includes previous/next buttons and a slide counter.

When to use it

When you have more than one bundle or "buy X get Y" offer and want them all in one place.

Setup steps

1. Create the offers in Salla (Marketing → Promotional offers).
2. Add the element and enter the section title (required) and description.
3. Add one entry per slide: title, intro text and the offer ID from its edit URL.
4. Optional: edit the product, add-to-cart and navigation button texts.

Tips

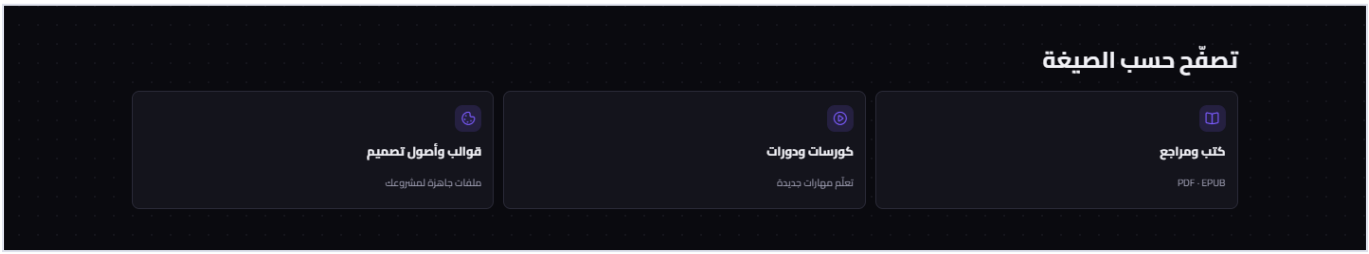

- Supports "buy X get Y" offers with a specific product on each side.
- Keep titles short and focused on the saving ("Save 20%").

Fields

Field	Type	Default / limits	Notes
Section title	Text		Required.
Description	Long text		
Promotional offers	Repeater	1–10 items	Required.
— Offer title	Text		Required.
— Offer intro text	Long text		Required.
— Promotional offer ID	Text		Required. Copy the offer number from the end of its edit URL. Supports "buy X get Y" offers with one product on each side.
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	
Product-card button text	Text		Applies to available products in this element. Out-of-stock / pre-order messages stay as they are.
"Add offer products" button text	Text		Leave empty for the default text.
"Previous offer" button text	Text		Leave empty for the default text.
"Next offer" button text	Text		Leave empty for the default text.

9 Browse by format

تصفّح حسب الصيغة · home.rg-formats

What it is

A row of 2–8 small horizontal cards, each with an icon, a title, a side note (e.g. PDF · EPUB) and a link. Lets visitors browse by digital format rather than by category.

When to use it

For book, course and template stores where the format matters (PDF, video, PSD…).

Setup steps

1. Add the element and enter the section title and the “view all” link.
2. Add one card per format: icon, title, side note and link.

Tips

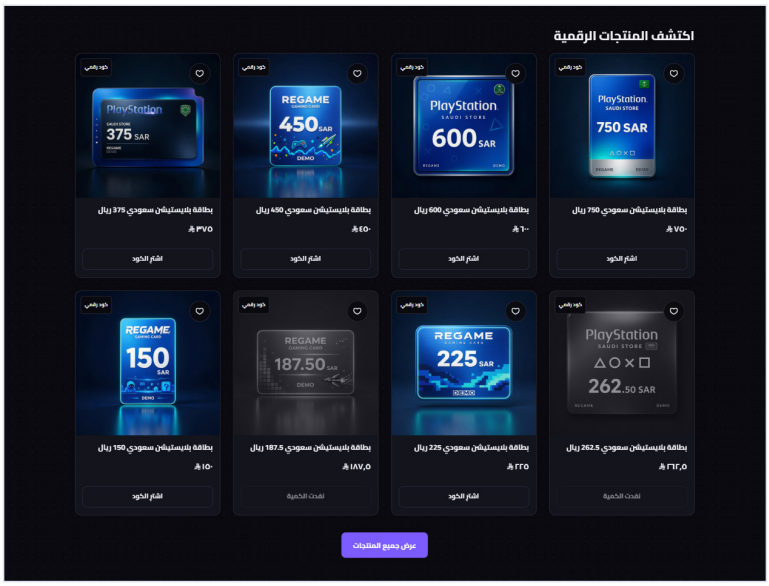

- Three or four cards are usually enough.
- Use the side note for extensions or duration.

Fields

Field	Type	Default / limits	Notes
Section title	Text	تصفّح حسب الصيغة	
"View all" link	Text		
Items	Repeater	2–8 items	Required.
— Icon	Icon	sicon-book-open	Choose an icon from the icon library.
— Title	Text	كتب ومراجع	
— Side note	Text	PDF · EPUB	
— Link	Text		

10 Products grid

شبكة منتجات · home.rg-grid

What it is

A four-column products grid using REGAME cards (product-type badge, spec line, sold-out state) from a source you choose: latest, offers, best sellers or hand-picked products. Includes a “view all products” button and an optional horizontal-card layout.

When to use it

The main element for showing products on the home page.

Setup steps

1. Add the element and choose the products source.
2. For “Selected products”, pick up to 8 products from the list.
3. Set the number of products (default 8), the “view all” link and button texts.
4. Enable “Horizontal cards” to show the image beside the text instead of above it.

Tips

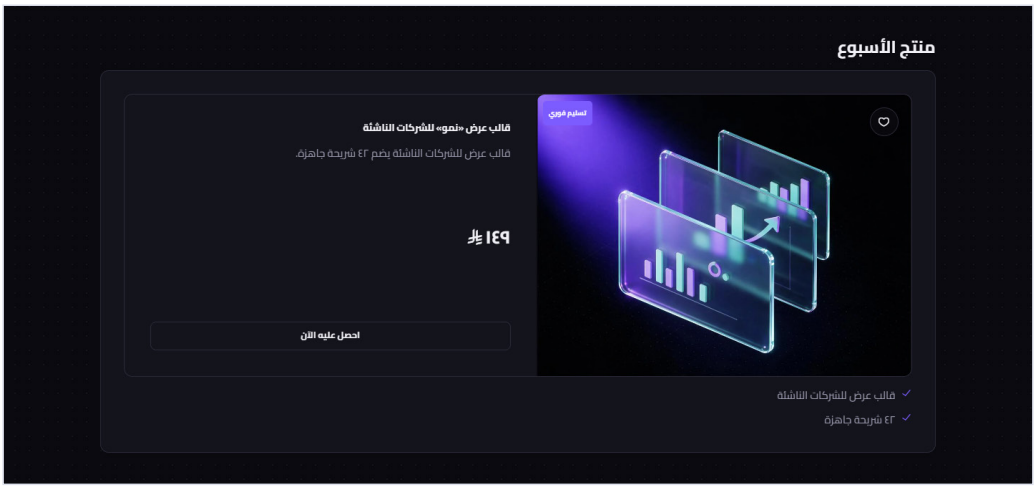

- 8 products = two full rows on large screens.
- The card badge (Instant delivery / Digital code / Service) is derived automatically from the product type; its wording is editable in theme settings.

Fields

Field	Type	Default / limits	Notes
Section title	Text	الأكثر تحميلاً هذا الشهر	
"View all products" link	Text		Leave empty to open the all-products page, or add a custom link.
Products source	Dropdown		Required. Options: Latest / Offers / Best sellers / Selected products
Products (when "Selected products")	Dropdown		
Number of products	Number	8	
Horizontal cards	Toggle	Off	
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	
Product-card button text	Text		Applies to available products in this element. Out-of-stock / pre-order messages stay as they are.
"View all" button text	Text		Leave empty for the default text.

11 Featured product

منتج بارز · home.rg-featured

What it is

Highlights a single product in a large card: an extra display image, the product name and price, a custom description, a buy button, and a list of 1–8 feature points with "صح" marks.

When to use it

For the product of the week or a new release every visitor should see.

Setup steps

1. Add the element and pick the product from the list.
2. Enter the section title (e.g. “Product of the week”) and a short description (up to 600 characters).
3. Upload a 1200 × 900 px display image (4:3) with no margins.
4. Add the feature points and the button text.

Tips

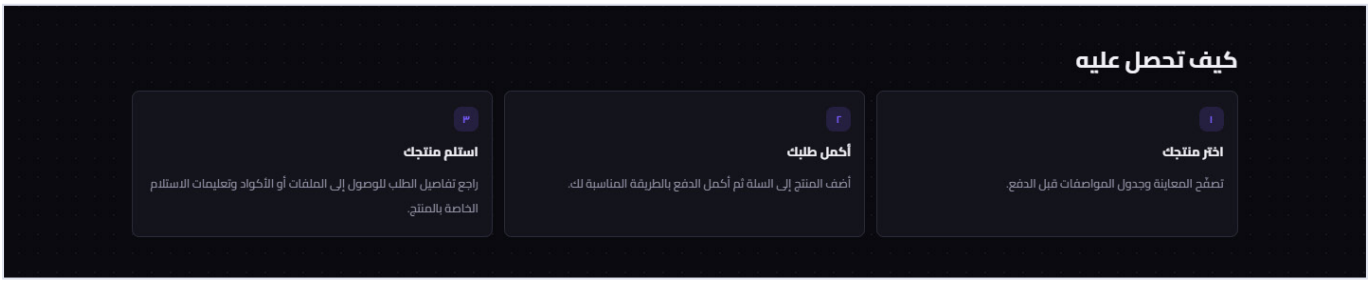

- The display image is extra; the product photo itself is edited from the product in Salla.
- List exactly what the buyer gets (number of files, formats, license).

Fields

Field	Type	Default / limits	Notes
Section title	Text	منتج الأسبوع	
Product-of-the-week description	Long text		Shown under the product name inside the card. Leave empty to hide.
Product	Dropdown		
Display image	Image		Recommended: 1200 × 900 px (4:3), no built-in margins. This is an extra image; the product photo is edited from the product itself. Under 3 MB.
Button text	Text	احصل عليه الآن	
Feature points	Repeater	1–8 items	Required.
— Feature	Text	٤٢ شريحة جاهزة	
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	
Product-card button text	Text		Applies to available products in this element. Out-of-stock / pre-order messages stay as they are.

12 How it works

كيف تحصل عليه · home.rg-howitworks

What it is

Two to four numbered cards explaining the purchase journey: choose the product → complete the order → receive it. Each step has a title and a short text.

When to use it

To reassure new visitors that the product arrives instantly with no shipping.

Setup steps

1. Add the element and enter the section title.
2. Add 2–4 steps, each with a title and text.

Tips

- Three steps are clearest; keep each text to one line.

Fields

Field	Type	Default / limits	Notes
Section title	Text	كيف تحصل عليه	
Steps	Repeater	2–4 items	Required.
— Title	Text	اختر منتجك	
— Text	Long text	تصفّح المعاينة وجدول المواصفات قبل الدفع.	

13 Testimonials

آراء المشترين · home.rg-testimonials

What it is

Buyer-review cards (1–9) you write yourself: the quote, name, role and a 1–5 star rating.

When to use it

To build trust before purchase, especially for digital products that cannot be inspected physically.

Setup steps

1. Add the element and enter the section title.
2. Add one review per card: quote, name, role and star count.

Tips

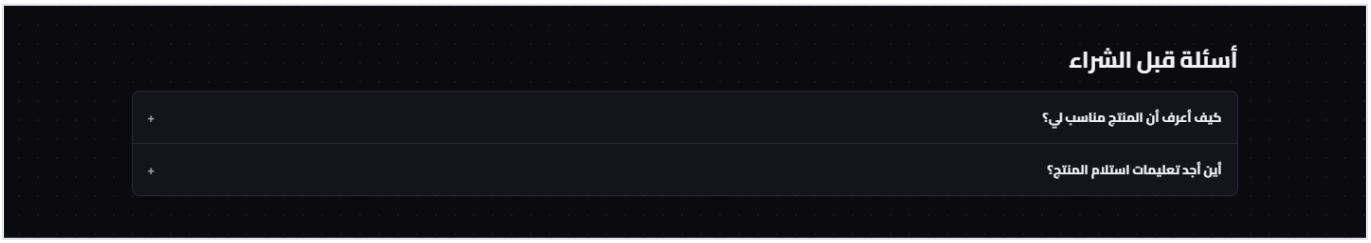

- Replace the demo text with real reviews before publishing.
- Mentioning the product name inside the review makes it more convincing.

Fields

Field	Type	Default / limits	Notes
Section title	Text	ماذا قال المشترون	
Items	Repeater	1–9 items	Required.
— Name	Text		
— Role	Text		
— Stars (1–5)	Text	5	
— Text	Long text		

14 FAQ

الأسئلة الشائعة · home.rg-faq

What it is

A collapsible list of 2–12 questions and answers: visitors click a question to reveal its answer.

When to use it

To answer pre-purchase questions: refunds, formats, delivery method, license.

Setup steps

1. Add the element and enter the section title.
2. Add a question and an answer per item.

Tips

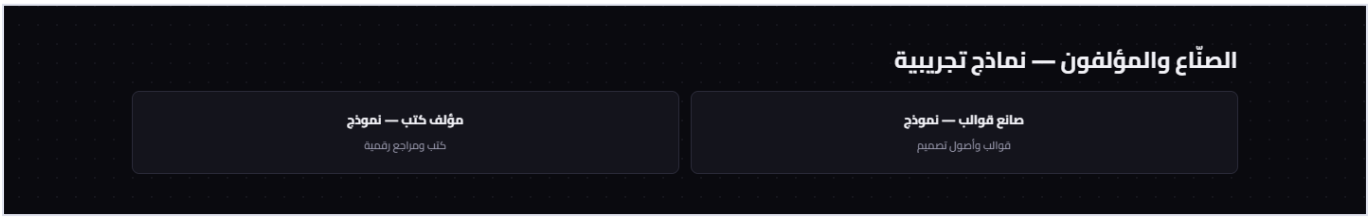

- Start with the question your support inbox sees most.
- Keep answers consistent with the refund policy written in theme settings.

Fields

Field	Type	Default / limits	Notes
Section title	Text	أسئلة قبل الشراء	
Items	Repeater	2–12 items	Required.
— Question	Text	هل أستطيع استرجاع منتج رقمي؟	
— Answer	Long text		

15 Creators

الصنّاع والمؤلفون · home.rg-creators

What it is

Four fixed cards introducing creators or authors: a circular photo, name, specialty and link. Only cards with a name are shown.

When to use it

For stores selling work by several authors or designers who deserve the spotlight.

Setup steps

1. Add the element and enter the section title.
2. For each card upload a square 200 × 200 px photo and enter the name, specialty and link.

Tips

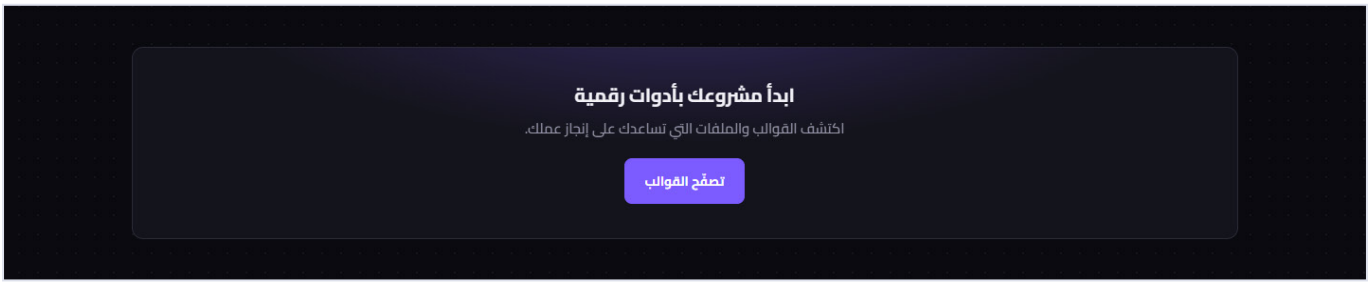

- Leave a card without a name to hide it — you don't need all four.
- Center the face or logo — the frame is circular.

Fields

Field	Type	Default / limits	Notes
Section title	Text	الصنّاع	
Photo (first)	Image		Recommended: 200 × 200 px, square, face or logo centered (circular frame). Under 3 MB.
Name (first)	Text		
Specialty (first)	Text		
Link (first)	Text		
Photo (second)	Image		Recommended: 200 × 200 px, square, face or logo centered (circular frame). Under 3 MB.
Name (second)	Text		
Specialty (second)	Text		
Link (second)	Text		
Photo (third)	Image		Recommended: 200 × 200 px, square, face or logo centered (circular frame). Under 3 MB.
Name (third)	Text		
Specialty (third)	Text		
Link (third)	Text		
Photo (fourth)	Image		Recommended: 200 × 200 px, square, face or logo centered (circular frame). Under 3 MB.
Name (fourth)	Text		
Specialty (fourth)	Text		
Link (fourth)	Text		

16 Call to action

شريط الدعوة · home.rg-cta

What it is

A call-to-action strip: a title, short text and one linked button inside a card with a gradient background.

When to use it

Just before the footer to push visitors toward browsing, subscribing or contacting you.

Setup steps

1. Add the element and enter the title and text.
2. Enter the button text and link.

Tips

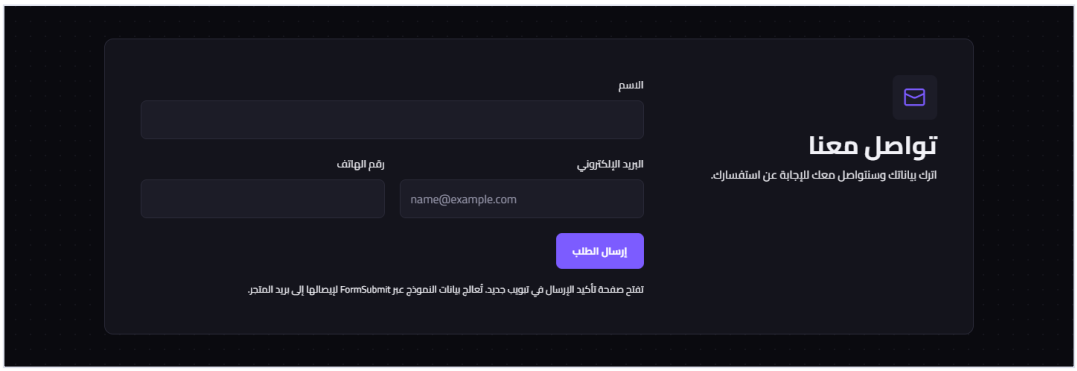

- Works well as a link to the categories page or the contact section.

Fields

Field	Type	Default / limits	Notes
Title	Text	جديدنا يصلك أولاً	
Body text	Long text	اشترك لتصلك المنتجات الجديدة والعروض.	
Button text	Text	اشترك الآن	
Button link	Text		
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	

17 Contact us form

تواصل معنا · home.rg-contact-form

What it is

A contact form on the home page: name, email, phone and an optional message field. Submissions go to your inbox through the free FormSubmit service (no coding), or to any other form service via a POST URL.

When to use it

To receive enquiries or custom-service requests without leaving the page.

Setup steps

1. Add the element and enter the recipient email.
2. Save and publish, then send a test submission from the store.
3. Open the activation email from FormSubmit and click the confirmation link — nothing is delivered before this step.
4. Test again; the visitor's details now reach your inbox.
5. Optional: enable the message field, add a privacy-policy link, or connect another service through "Other form-service URL".

Tips

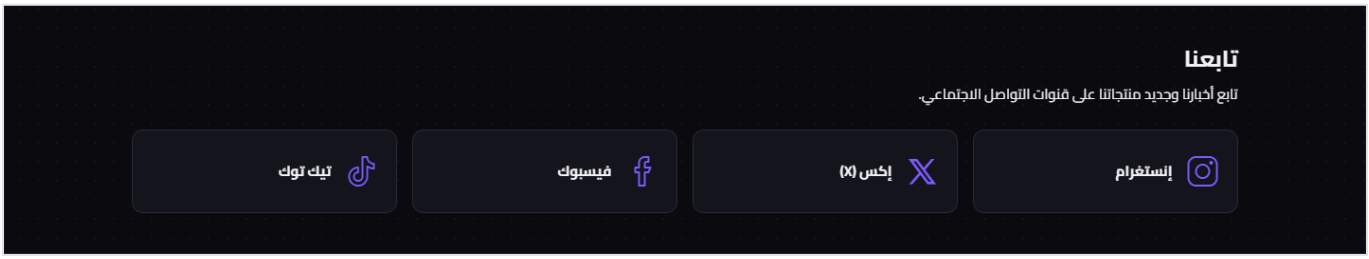

- Check the spam folder when looking for the activation email.
- Never put an API key in the URL field — it is public in the browser.
- The other-service URL takes priority over the recipient email.

Fields

Field	Type	Default / limits	Notes
Section title	Text	تواصل معنا	
Description	Long text	اترك بياناتك وستتواصل معك للإجابة عن استفسارك.	
Recipient email	Text		Enter a valid email. The simple method uses FormSubmit: after the first submission, open the activation email and click the confirmation link.
Submit button text	Text	إرسال الطلب	
Show optional message field	Toggle	Off	
Privacy policy link (optional)	Text		Link starting with https://.
Other form-service URL (optional)	Text		Leave empty for the simple method. To use another service, enter a public POST URL that accepts name, email, phone and message. Takes priority over the recipient email. Never put an API key here.
Custom button colors	Toggle	Off	Enable to set button colors for this element only. Off = buttons follow the theme.
Button background	Color	#7C5CFF	
Button text & icon color	Color	#FFFFFF	

18 Follow us

تابعنا · home.rg-follow-us

What it is

Social-channel cards (1–20): pick the platform from a list — its name and logo appear automatically — and paste your channel link.

When to use it

Near the bottom of the home page to turn visitors into followers.

Setup steps

1. Add the element and enter the title and description.
2. Add one entry per platform: choose it and paste the full URL.

Tips

- A channel stays hidden until its link is added.
- Supported: Instagram, X, Snapchat, TikTok, YouTube, WhatsApp, Telegram, Facebook.

Fields

Field	Type	Default / limits	Notes
Section title	Text	تابعنا	
Description (optional)	Text	تابع أخبارنا وجديد منتجاتنا على قنوات التواصل الاجتماعي.	
Social channels	Repeater	1–20 items	Required.
— Platform	Dropdown		Required. Pick the platform; its name and logo appear automatically. Options: Instagram / X / Snapchat / TikTok / YouTube / WhatsApp / Telegram / Facebook
— Channel URL	Text		Required. Full URL starting with https://. The channel stays hidden until a link is added.

Theme settings

Theme settings

56 theme-editor settings in eight groups controlling identity, colors, badges and policies.

Opened from the theme editor → the settings icon in the sidebar.

Theme identity

- Custom theme logo (520 × 260 px, transparent) — optional; does not change the account logo.
- REGAME font: follow store font, Cairo, Tajawal, Almarai, IBM Plex Sans Arabic, Readex Pro.
- Color palette: Pulse (purple), Orbit (teal), Ember (orange), Ink (no color), Bright (white), Silver (light gray).
- Display mode: dark or light (Bright and Silver are always light).
- Accent source: theme palette or your Salla store color.
- Corners: soft or sharp.

Footer colors

- A toggle for custom footer colors, then 6 colors: footer background, credits bar background, text, headings, links, link hover.
- A tagline shown in the footer.

Top bar

- Announcement text and link (empty = hidden).
- Sticky main menu on scroll.
- "More" menu in the main navigation.

Product card

- Spec line (read from the product subtitle).
- Sold count.
- "Notify me when available" button.
- Add-to-cart toast.
- Free-product label.

Delivery promise

- The three badge texts: digital product, code product, service.
- Note under the buy button.
- Extra spec lines in "Key: Value" form shown in every product's spec table.

Trust & policies

- License and usage-limit text.

- Copy-code button.
- Purchases page name ("My library").

Product pages

- Breadcrumbs on product and category pages.
- Sticky buy button on mobile.
- Image zoom on hover.
- Product tags.

Support

Support & FAQ

Answers to common issues, contact details and developer notes.

I added an element but it does not show in the store

Make sure you clicked “Save changes” and then “Publish” in the theme editor. Hidden elements appear dimmed in the list; click "..." next to the element and choose “Show”.

Images look cropped

Follow the recommended sizes in each image field (e.g. 1400 × 460 for the slider, 800 × 1200 for promo cards) and keep the subject centered. Files must be under 3 MB.

The contact form does not deliver messages

The service is inactive until confirmed: send a test submission, open the FormSubmit email (check spam) and click the confirmation link, then test again.

The bundle or offers carousel is empty

The offer must be a “buy X get Y” offer with a specific product on each side, active and within its dates. Double-check the offer ID copied from the end of its edit URL.

How do I change button colors in one element only?

Inside the element settings enable “Custom button colors” and pick the background and text colors. When off, buttons follow the theme palette.

The card badge is wrong (Instant delivery / Digital code / Service)

The badge comes from the product type in Salla (digital / codes / service). Change the product type in the Salla dashboard, or edit the badge wording in Theme settings → Delivery promise.

I changed my store color but the theme did not change

In Theme settings → Theme identity choose “Accent source: my Salla store color”.

The WhatsApp button does not appear

Enable “Floating WhatsApp support button” in Theme settings → Trust & policies and enter the number as 9665XXXXXXXX, or leave it empty to use the store’s WhatsApp number.
